

Quality Policy

Exceeding Expectations.....

It is our aim to provide customers with the most cost effective solution, coupled with the very highest levels of service, no matter how big or small they are.

We want to become an integral supplier to all of our customers and to be the benchmark to which all of their other suppliers are judged.

Our service is delivered through our key values of

- Honesty and openness
- Trust
- Integrity
- Flexibility
- Commitment
- Innovation

We will work to continually improve the company performance and associated management systems to satisfy and delight our customers.

This policy is deployed through our quality management system that has been established, documented and implemented to conform to ISO 9001:2008.

The systems defined have our active full support. They are under continual review and improvement, however once defined are mandatory for all personnel.
